

Walter is hiring a

Global Procurement Manager — Finished Products (m/f/d)

Responsibility: Subcategories within Finished Products

Location Eschborn/Frankfurt am Main

You don't just want a job – you want to **grow, take responsibility, and make a real impact?**

Walter Tools is one of the world's leading metalworking companies, bursting with empowered people and industry-leading solutions in metal cutting. At Walter, you get the chance to **take your international procurement career to new heights**: hands-on, supported, and with the freedom to develop.

Your mission:

From day one, you'll be part of an international setup – not watching from the sidelines, but **actively contributing and growing into your role**:

- Work with **international suppliers and teams**, experiencing global collaboration first-hand
- Gradually take ownership of your own **procurement categories**
- Build relationships and develop your own **supplier network**
- Learn how to **negotiate, influence, and make decisions that matter**
- Dive into markets, costs, and technologies in **precision manufacturing**
- Work at the intersection of **technology, business, and strategy** and be part of projects that **improve global supply chains**

Your journey: You'll start supported and quickly grow into a role where you **own decisions and see your impact**.

Our benefits:

Walter offers you a modern working environment with flexible working hours, remote working, a wide range of health benefits, and company pension schemes. We place great importance on enabling our employees to develop professionally and personally. Safety in the workplace is

Your Profile:

- Degree in **business, engineering, or a related discipline**
- Initial experience in **procurement, supply chain, or a technical field**
- Interest in **technical products or manufacturing**
- Curious about **international environments and cultures**
- An analytical mindset, strong communication skills in German and English, as well as confidence to contribute your ideas
- **Most importantly:** eagerness to learn and the motivation to take the next step

Please apply with your complete application documents (cover letter, CV, references), stating your salary expectations and earliest starting date through our online application portal on [walter-tools.com](https://www.walter-tools.com).

Our company and culture:

For more than 100 years, Walter has stood for expertise and quality in machining technology. The company was founded in 1919 by Richard Walter and is headquartered in Tübingen, Germany. With its comprehensive solution approach, Walter positions itself as an end-to-end partner for metalworking. The company brings its brand promise – Engineering Kompetenz – to life by supporting the entire machining process: from high-performance cutting tools and tailor-made process solutions to innovative apps and software for digital connectivity. These reduce complexity for customers, combining all key elements of machining into an integrated, sustainable solution. With production facilities in North and South America, Europe, and Asia, as well as numerous subsidiaries and channel partners, Walter has a globally structured corporate organisation. Around 3,600 employees serve customers in more than 80 countries.
